

Connect to Mission

August 6, 2024

Featuring: NSWC Crane's
Special Warfare & Expeditionary Systems
Department

Special Guests

CDCA

CDCA is the premier advocate for the Charleston Defense Contractor Industry whose mission is to advocate for, preserve, strengthen, and grow the Charleston defense industry through partnership and collaboration.

Mr. Peter Reddy

As Executive Director and senior civilian official of Naval Information Warfare Center (NIWC) Atlantic, Peter C. Reddy sets command-wide strategic goals and manages engineering and business operations for more than 4,900 federal civilian and military employees, and approximately 9,000 industry partners.

Crane Regional Defense Group

Our Mission:

To elevate the strategic value of Crane and expand southern Indiana's defense innovation ecosystem through defense-related outreach and legislative initiatives that enhance military missions in the region.

Our Objectives:

Educate & Inform - Educate and inform the business, citizens, and governments of the region about the economic and cultural benefits of a strong military presence in the region and the importance of the related regional infrastructure.

Promote Defense - Serve as a catalyst to promote defense ecosystem assets within NSA Crane and throughout the Indiana Uplands region.

Stimulate Relationships - Through the diversity of the membership, coordinate with various entities who have similar interests in maintaining a healthy and stable community, economy, and DOD installations in our region.

Crane Regional Defense Group

C2M EVENTS

Agenda

- **NSWC Crane Command Welcome:** *Dr. Kyle Werner (SSTM), Deputy Technical Director*
- **NIWC LANT:** *Mr. Peter Reddy (SES), Executive Director*
- **Special Warfare & Expeditionary Systems Department:** *Ms. Angela Breeden, Chief Strategist*
- **Division Manager Panel:** *Mr. John Kleihege, Division Manager, Maneuver, Surveillance & Engagement Division (Facilitator)*
- **Networking Break**
- **Division Manager Panel:** *Ms. Nova Carden, Division Manager, Power and Energy Systems Division (Facilitator)*
- **Networking Break**
- **Acquisition Approach Panel:** *Ms. Lisa A. Good, Chief of the Contracting Office (Facilitator)*
- **Closing Comments**
- **Networking:** *Join PRF for the First Tuesday Event featuring Everspin!*

Advancing Naval Advantage

Crane Regional Defense Group (CRDG)
Connect to Mission (C2M) event
6 August 2024

Mr. Peter C. Reddy, SES
Executive Director
NIWC Atlantic

Mission

Conduct research, development, prototyping, engineering, test and evaluation, installation, and sustainment of integrated information warfare capabilities and services across all warfighting domains with an emphasis on **Expeditionary Tactical Capabilities & Enterprise IT and Business Systems** in order to drive innovation and warfighter information advantage.

Naval support in the IW warfighting domain to counter Cyber threats to warfighting ability — enterprise to tactical networks.

- Command and Control systems
- Communication systems
- Networking
- Cyber operations
- Intelligence, surveillance, reconnaissance
- Business systems
- Information security

FY23 At-a-Glance — government expertise to drive innovation and warfighter information advantage.

We are where America's naval forces are.

We are in the theater of operations... forward-based, forward-deployed and globally positioned with America's warfighters.

U.S.

- ★ Charleston, SC (CO)
- ★ Naval District Washington
- ★ Hampton Roads, VA (XO)
- ★ New Orleans, LA (OIC)
 - Tampa, FL (SOCOM focus)
- Fayetteville, NC
- Pax River, MD
- Kings Bay, GA
- Mayport, FL
- Groton, CT

Overseas

- Stuttgart, Germany
- Naples, Italy (OIC)
- Manama, Bahrain (OIC)
- Rota, Spain
- Okinawa, Japan

NIWC Atlantic's Command Strategy implementing data informed decisions to ensure a winning team to rapidly deliver the best IW solutions to the warfighter.

Executing National and Naval Strategies

3 LINES OF EFFORT

- Warfighting** → 1) Deliver Naval Information Advantage and Warfighter Readiness
- Foundations** → 2) Optimize Our Operations
- Warfighters** → 3) Adapting Workforce and Culture

Technology Strategy/Technology Focus Areas

- Artificial Intelligence**
- Assured Comms**
- Cloud Computing**
- Cybersecurity**
- DevSecOps**
- Mobility**
- Model-Based Systems Engineering**

Cyber Secure Decision Intelligence Focus

- Command and Control systems
- Communication systems
- Networking systems
- Cyber operations
- Intelligence, surveillance, reconnaissance
- Business systems
- Information security

All Domain Naval Integration, Cyber and Electronic Warfare Labs — driving integration and interoperability into Naval Capabilities.

C4I Surface, Subsurface and Land Integration Labs

connecting warfighters with tactical data networks; linking weapons, sensors, battle systems across operational platforms and geographic locations.

ESIIC | Expeditionary Systems Integration and Innovation Center Bay

Poseidon Park Electromagnetic (EM) Interference Testing Ground

Transportable ATC and Meteorology

Common Submarine Radio Room

Naval Cybersecurity Technical Leader — cybersecurity in everything we do.

We deliver capability with the functionality and the security the warfighter and our customers need to execute their Mission.

Strengthen and secure naval systems and networks.

- Includes:
 - Cyber attack and defense
 - Cryptography and Computer forensics
 - Threat and vulnerability assessment
 - Wireless networks and satellite comms

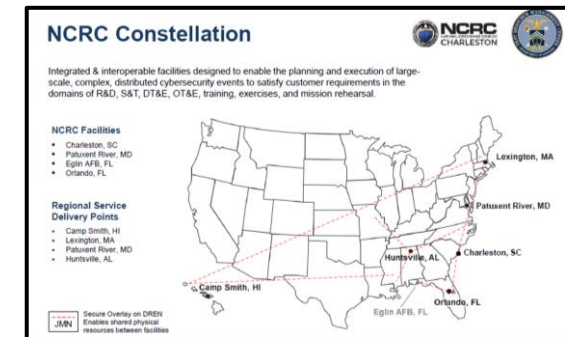

Drive implementation of cyber standards Navy-wide, creating a secure, defensible information domain.

- Includes:
 - Cyber Security Service Provider
 - Forensics Lab, the Navy's trusted Agent
 - Support to DIA and DISA for the JWICS network
 - SCI and SAP Network infrastructure engineering
 - NSA-Certified Red Team

The National Cyber Range Complex Charleston Enables us to train like we fight.

Supports Cyberspace testing, training, mission rehearsals, cyberspace operations, tactics, Science and Technology demonstrations and forensics/malware analysis

NCRC Charleston a DOD resource under the purview of the Test Resource Management Center

Engineering the IW advantage into tactical systems afloat and ashore

Navy Afloat Networks
& C2 Applications

C4ISR System
Integration
Facility

Fleet Installations

Ashore platforms

Engineering the IW advantage into our Fleet.

- Direct support to the Fleet, intelligence and information operations
- Cybersecurity to ensure strong authentication, data integrity, confidentiality, non-repudiation and availability of network resources and information
- Effective, robust and cost-efficient networks for Navy tactical forces
- Mission critical assured and resilient Comms and Position, Navigation and Timing (PNT), test and acquisition support for waveforms being developed for use within the battlefield
- End-to-end systems engineering and lifecycle C4I systems for naval aviation platforms, Foreign Military Sales and USCG afloat, ashore, and mobile platforms.
- C4I equipment on new-construction ships, aboard U.S. Navy, MSC, and USV
- C5I to the Navy's submarine and associated ashore comms infrastructure during new construction and modernization | Submarine antenna to weapon systems
- Shore C4I interoperable C4I infrastructure to support naval afloat, sub-surface, air platforms and shore network communications supporting deployed warfighters

Enabling Fleet Focused Information Warfare

Wargaming and Realistic Testing Experimentation — to develop the best capabilities for maritime and expeditionary operations.

Bold Quest Island Marauder 2023

A USMC and Joint Staff J6 month-long event supporting Combined JADC2. Aimed to connect all assets and sensors across sea, land, air, space and cyber into one global “sensor to shooter” network that delivers a decision advantage to commanders on the ground.

Communications Test Events

for a future fleet that better connects critical command and control functions to various weapons, sensors and small unmanned Systems.

USVs prepare for departure with Fort Sumter in the background
April 2023

USV departing from Atlantic Inter-Coastal Waterway boat ramp where aerostat is being flown

SoSNIE | System of Systems Naval Integration Experiment 2024
An agile event that allows for maximum flexibility to support any experimentation, specifically designed for the engineers to focus on the advancement of their technology.
~ 300 attendees on DV Day
~200 participants and 45 systems

Events are aligned with DoD's Joint All-Domain Command and Control | JADC2

Delivering within the full range of Naval & Joint Operations

NAVWAR established IWRP

A pathway for rapid acquisition and collaboration between industry, government and academia.

Focused on Information Warfare Research and with Navy/Marine Corps work to rapidly advance IW technologies to the Warfighter.

\$1B Ceiling \$1.9B awarded since inception 171 Prototype and 25 Production Awards (May 2024)

IWRP3 Undefined ceiling
▪ 10 Year Ordering period (FY25- FY34)

Memorandum of agreement signed 13 March 2023
To advance technology solutions in fields like electromagnetic warfare, spectrum operations, cybersecurity and autonomous systems.

FY 24 – Interim – Small Business Achievements

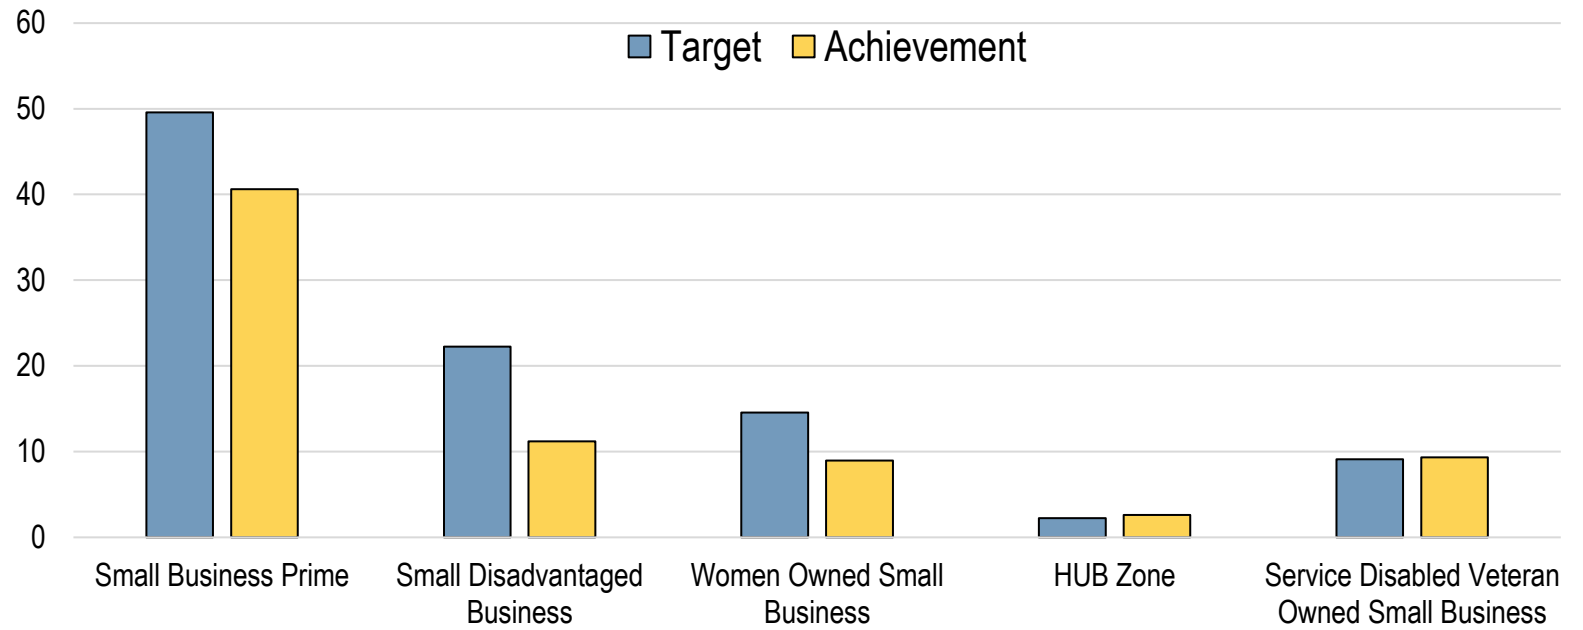

FY24 SB Projection

NAVWAR collectively and particularly NIWC Atlantic is short of our SB goal.

January 2, 2024, SeaPort NxG exercised the current 5-year option period due to business size standard validations.

We need your help identifying capable small businesses and other contributors to the shortfall.

— We are in this together —

	SB	SDB	WOSB	HUB Zone	SDVOSB
1 July 2024 Obligated	\$608,688,151	\$167,543,144	\$133,960,196	\$38,747,569	\$139,532,092
Achievement	40.61%	11.18%	8.94%	2.59%	9.31%
Target	49.56%	22.25%	14.56%	2.22%	9.09%

NAVSEA LONG RANGE ACQUISITION ESTIMATE

NAVSEA's Long Range Acquisition Estimate (LRAE) is now available. This estimate creates a demand signal of anticipated business needs and makes early planning possible to a wide range of current and potential industry partners. It also contributes to better support of NAVSEA's requirements and fosters increased competition which benefits both NAVSEA and new business partners.

<https://www.navsea.navy.mil/Business-Partnerships/LRAE/>

System Messages

(2023-OCT-09 02:00) System: All Subject: DCMA PIEE SURVEY REQUEST Message For: All Users
Attention all users,
DCMA's Modernization and Analytics Initiative (MAI) program develops and provides modernized capabilities to facilitate the provision of world-class contract management. The following link is to a DCMA controlled survey where your opinion on the Utility / Usability of the DCMA developed applications will be used to create enhancements for current / future development. This survey is anonymous, will take approximately 5-10 minutes to complete, and is for DCMA, Contract Vendors, 4th Estate personnel, and other Agencies and Services.
Survey link: <https://forms.osi.apps.mil/r/cYkBgTshG>

(2023-DEC-20 00:00) System: All Subject: Request for MOCAS Action Message For: All Users
We've made it easier to request a MOCAS Action. Just answer some simple questions about your request. We will help guide you through the form to ensure it's completed accurately and ready to submit on your first attempt!

The screenshot shows the top navigation bar of the DoD Procurement Toolbox website. The header includes the Department of Defense seal and the text "Department of Defense Procurement Toolbox". Below the header are four dropdown menus: "Government Furnished Property", "PIEE", "eBusiness", and "Purchase Card". The "PIEE" dropdown menu is open, displaying a list of options: "About PIEE", "PIEE Modules", "AT-AT", "CDR", "CLS", "FedMall", "JAM and SPM", "SPRS", and "Solicitation Module". On the left side of the page, there is a navigation menu with a wrench and screwdriver icon, containing "Department of Defense", "Procurement Toolbo", and "A collection of tools and serv". Below this is a "Latest News" section with a document icon.

Please visit the DoD Procurement Tool Box for Solicitation Module Training prior to mandatory implementation at <https://dodprocurementtoolbox.com/site-pages/solicitation-module>

Broad Agency Announcement (BAA)

- Search **N0016424SNB35** on SAM.GOV
- This announcement seeks revolutionary research ideas, and technology demonstrators that offer potential for advancement and improvement of NSWC Crane's primary mission areas. This BAA is issued to seek innovative solutions and ideas for topics not covered via other means.
- Proposal(s) could result in full funding, some, or none.
- Abstract Due Date: Abstracts may be submitted on a rolling basis
- Proposal Due Date: Proposals may be submitted on a rolling basis
- Closing Date: Not Applicable at the time of initial posting

BAA Assigned Technical Capabilities (TC)

1. Electronic Warfare (EW)
 2. Infrared and Pyrotechnic Countermeasures
 3. Strategic Systems Hardware
 4. Expeditionary Warfare and Systems
 5. Advanced Electronics
 6. Sensors and Surveillance Systems
 7. Hypersonic Weapon Systems
 8. Power and Energy Systems
 9. Electro-optic and Infrared Technologies
 10. Force level EW Mission Analysis, Advanced Concepts and Technologies
- Within each of the TCs, there are multiple thrust areas, which present considerable opportunities for innovative research and solutions to support national security imperatives.
